

# Estimated Distribution of Funds from *Infrastructure Investment and Jobs Act* for Abandoned Mine Lands

These estimates were created by Appalachian Citizen's Law Center in July 2020 and are presented as a best guess to aid advocates in understanding the potential impacts of the proposal to invest \$11.3 billion into the Abandoned Mine Land Fund. They are not reflective of actual decided upon amounts. As the Infrastructure Investment and Jobs Act is currently written, funds will be distributed based on historic coal mined, versus current unfunded inventory.

State/Tribe	Current Unfunded Inventory (excluding non coal projects in certified states)	Estimated Annual Allocation under the Infrastructure Investment and Jobs Act (based on historic coal tonnage)	Estimated Total Allocation over 15 years under the Infrastructure Investment and Jobs Act (based on historic coal tonnage)

\*The estimated cost to clean up abandoned mine lands in the United States could be higher than [\\$26 billion](#) nationwide. Though the \$11.3 billion in this proposal will provide an unprecedented boost to this effort, actual reclamation will greatly exceed the current inventory estimates for all states.
