Charleston, WV 25304

**RE: Mountain Valley Pipeline Project (Permit No. WVR310667)  
48-Hour Notification of Aquatic Resource Activity**

Dear Mr. Wright:

Under the “West Virginia Department of Environmental Protection Conditions Required for Issuance of Federal Permits and Licenses Requiring State Section 401 Certification (Permit No. WQC-21-0005)” dated June 8, 2023, condition 2 states the following:

*“Second, we are requiring that MVP provide 48 hours' notice to the WVDEP before commencing any stream or wetland crossing activity. This notification allows State inspection personnel to use their resources efficiently to inspect high-priority crossings and to conduct unannounced inspections to verify compliance.”*

This letter is intended to provide you with 48-hour notice. On Spread F, in Summers County, MVP will begin prepping the site and bore pits for the trenchless crossing of Stream S-I8.

The Erosion & Sediment Control Sheet showing the location of the crossing is referenced below.

**Crossing Name & ESC Sheet Number:** S-I8; ESC Sheet 8.28

**MVP Environmental Inspector:** Percy Jones / (601) 337-9324

**Anticipated Crossing Start & Completion Date:** Start – 8/14/2023 and Complete – 11/3/2023 (includes backfilling the bore pits)

Should you have any questions or need additional information, please contact Anthony Willard at [awillard@equitransmidstream.com](mailto:awillard@equitransmidstream.com).

Sincerely,

Anthony J. Willard  
Mountain Valley Pipeline, LLC – Sr. Environmental Coordinator
